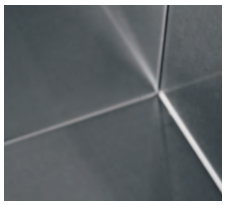
Smooth-Glide™ Full-Extension Warmer Drawer

Drawer slides in and out with ease, extending completely and safely for convenient access to prepared foods.

Flexible Temperature Control

The 450-watt heating element keeps food warm at a preferred serving temperature of anywhere from 80 to 210 degrees F. The blue LED panel is visible through the convenient display window located on the drawer front.



Stainless Steel Interior Design

Entire inner drawer cavity is constructed of smooth and durable, seamless stainless steel for easy cleanup.

Humidity Control

Allows adjustment of humidity levels to ensure that foods taste as they should even after reheating.
